

Latest Release from Vecima Networks

The latest release of the Vecima Telematics System will be completed on Thursday, **August 25, 2022**. Please see below for a brief description of the enhancements included in this release.

Feature	Description
Route Log – More Events  Route Log	<p>Previously, the Route Log Report displayed a maximum of 500 events.</p> <p>Users can now see up to 1000 events on the Route Log Report, providing a wider range of data and longer duration.</p>
Route Log – Zoom in on the Map 	<p>The Route Log Report map now includes a slider feature that allows the user to adjust the events visible on the map to focus on smaller portions of large routes.</p>
Easily Identify Vehicles on Path View 	<p>When larger numbers of vehicles are viewed at the same time in Path View, it can often become difficult to identify the vehicle associated with a particular path.</p> <p>Clicking the mouse near any of the paths will now display a popup identifying the vehicle on that path.</p>

<p>Scheduled Geofence Activity Report</p>  <p>Geofence Activity</p>	<p>The Geofence Activity Report may now be run as a scheduled report.</p>
<p>Scheduled Reports Without Data</p>  <p>Event Details</p>	<p>Users now have an option to omit items without data for the following scheduled reports: Event Details Report, Idle Time, Landmark Summary, Stop Report, Trip Report, and Speed Violation.</p> <p>Previously, these scheduled reports often presented empty pages of output when there is no data for a particular vehicle. By selecting the option to "Remove items with no results" from the scheduled report setup, these blank pages will be removed.</p>
<p>1 Year Engine Hours and Mileage Summary Reports</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Engine Hours</p> </div> <div style="text-align: center;">  <p>Mileage Summary</p> </div> </div>	<p>Users may now generate Engine Hours and Mileage Summary Reports which include a full year of data.</p>
<p>IE11 No Longer Supported</p> 	<p>For performance and map display reasons, Internet Explorer will no longer be supported for the fleet portal.</p> <p>Users are encouraged to switch to a modern browser, such as Google Chrome, Mozilla Firefox, Microsoft Edge, or Apple Safari.</p>

System Enhancements	This release includes system and infrastructure enhancements that will improve security and reliability.
----------------------------	--

In addition to the features above, this release will also include other minor bug fixes and enhancements. If you have any questions or comments, please do not hesitate to contact us at support.telematics@vecima.com.

Best regards,

The Vecima Team
