

Latest Release from Vecima Networks

The latest release of the Vecima Telematics System will be completed on Tuesday, **December 3, 2024**. Please see below for a brief description of the enhancements included in this release.

Feature	Description
<p>Vecima 2850 LTE Trailer Tracker</p> 	<p>The 2850 is designed for reliable, long-term management of trailers which are normally connected to 12V or 24V vehicles but may remain disconnected for long periods of time.</p> <p>Features include:</p> <ul style="list-style-type: none"> • Fully weather proofed for external mounting (IP68 sealed enclosure) • Internal battery recharges automatically when the trailer is tethered to the tractor • Configurable tracking intervals to maximize battery life while the trailer is untethered • Real-time tracking at higher frequencies while the trailer is tethered and in motion • Support for input from Temperature and Door sensors • Notifications when the trailer is untethered, and when the internal battery charge is low.
<p>Vecima 2900 LTE Asset Tracker</p> 	<p>The 2900 is a battery operated "slap-and-track" device which is easily installed on any sort of asset.</p> <ul style="list-style-type: none"> • Fully weather proofed for external mounting (IP69K / IP67 sealed enclosure) • Operates using 3 AA lithium batteries, that can be easily replaced • Fixed tracking interval (2 locates per day) to maximize battery life • Low battery notifications

Feature	Description								
<p>7400 Temperature Sensor</p> 	<p>1-Wire Temperature Sensor support has been added for the 7400 beacon.</p> <p>Users can configure scenarios to send alerts if the space where the sensor is installed rises above or drops below specified temperature thresholds (i.e., becomes too hot or too cold).</p>								
<p>Trip Report with Map Update</p>  <table border="1" data-bbox="256 982 654 1087"> <thead> <tr> <th>Start Time</th> <th>Start Location</th> </tr> </thead> <tbody> <tr> <td>11/25/2024 04:11PM</td> <td>736 View Street,</td> </tr> <tr> <td>11/25/2024 03:59PM</td> <td>530 Broad Street</td> </tr> <tr> <td>11/25/2024 03:46PM</td> <td>2817 Market Stre</td> </tr> </tbody> </table>	Start Time	Start Location	11/25/2024 04:11PM	736 View Street,	11/25/2024 03:59PM	530 Broad Street	11/25/2024 03:46PM	2817 Market Stre	<p>The Trip Report with Map has been updated to include the Start Location in the tabular output.</p> <p>Each line of the output now represents a complete trip segment.</p>
Start Time	Start Location								
11/25/2024 04:11PM	736 View Street,								
11/25/2024 03:59PM	530 Broad Street								
11/25/2024 03:46PM	2817 Market Stre								
<p>System Enhancements</p>	<p>This release includes system and infrastructure enhancements that will improve security and reliability.</p>								

In addition to the features above, this release will also include other minor bug fixes and enhancements. If you have any questions or comments, please do not hesitate to contact us at support.telematics@vecima.com.

Best regards,

The Vecima Team
