

Latest Release of the Contigo System

The latest release of the Contigo System was completed on Friday August 26, 2011.
Please see below for a brief description of the enhancements included in this release.

Feature	Description
<p>Contigo 6151 Vehicle Tracking Beacon</p> 	<p>The Contigo 6151 supersedes the Contigo 6150 as our primary vehicle tracking beacon.</p> <p>The beacon has the same form factor and uses the same accessories and antennas as the 6150. Some internal beacon components have been updated which may result in increased GPS performance and GSM connectivity in some situations. In addition, the USR2 LED, which indicates GPS status, is now blue to differentiate it from the other colored LEDs.</p> <p>The Contigo 6151 is available for order now.</p>
<p>Polygon Zones – Contigo 6150 & 6151</p> 	<p>Using the Contigo 6150 or 6151 you may now create up to 10 polygon zones with up to 11 coordinates each.</p> <p>As with other zones, Polygon Zones may be 'allowed' or 'disallowed' and are created under Administration->Scenarios in any Commercial Portal.</p> <p>Please note: to enable Polygon Zones an additional one-time activation fee is required. This activation will enable both Polygon Zones and Garmin Dispatch on the beacon. If Garmin Dispatch is already enabled on a beacon you will not be required to pay an additional fee to activate Polygon Zones. Activation requests may take up to 3 business days to complete.</p>

Feature	Description
<p>State By State Mileage – Now includes Canadian Provinces</p> 	<p>Whether you are in the US or Canada, the State by State Mileage report now includes sub-totals for mileage driven in Canadian provinces in addition to US states.</p>
<p>Garmin Dispatch – MapView Redesign</p> 	<p>If you are using Garmin Dispatch and Navigation, and dispatch to Drivers, you now have the option to immediately show Driver location when opening MapView. On the MapView control simply click on 'drivers' and you will be shown a list of Drivers to select.</p>
<p>Garmin Dispatch – Export Jobs and Messages</p> 	<p>Now save communications between Drivers and Dispatchers by exporting all Jobs and Messages from the Dispatch tab.</p> <p>Simply click on 'export' to archive all communications in an MS Excel format.</p>

Feature	Description
Service Log Report – Now includes Comments 	<p>Service log Comments are now shown on the Service Log Report.</p> <p>Comments can be optionally entered each time a service is performed on a vehicle and the information entered into the Contigo system.</p>
Additional Features: <ul style="list-style-type: none"> • Saved Pagination • IE9 and FF 5 support 	<p>On the Vehicles, Assets, Personnel and Dispatch tabs, if you change the pagination from the default of 25 items per page your settings will be remembered.</p> <p>Minor compatibility issues with Internet Explorer 9 and FireFox 5 have been fixed.</p>

In addition to the feature above, this release will also include bug fixes and other minor enhancements.

If you have any questions or comments, please do not hesitate to contact us at support@contigo.com.

Best regards,
The Contigo Team
