Release Notes

Latest Release of the Contigo System

The latest release of the Contigo System was completed on Thursday April 24, 2014. Please see below for a brief description of the enhancements included in this release.

Important Notes

1. If you continue to use Flash technology for viewing maps in the portal, FlashPlayer 11.1+ is required to be installed in your browser. Please ensure that Flash is up to date on your system.

2. To ensure that all portal features function correctly, it is recommended that you clear your browser's cookies and cache. For assistance, please visit http://www.contigo.com/clear_browser_cache.html .

Feature	Description
Periodic Temperature Polling	The 1-Wire Temperature Sensor support has been updated to allow for periodic temperature readings to be recorded. When a temperature sensor probe is installed on a 65xx series beacon and the Temperature Sensor Scenario is active, regular periodic temperature updates will be included with each Event and will appear on: • Map View • Route Log Report • Event Details Report Since most Events are recorded while the vehicle ignition is on, the user also has the option of configuring periodic temperature polling while vehicle ignition is off.

Feature	Description
GPSFT iPhone Update for iOS 7	The GPS Fleet Tracker iPhone App has been updated to take advantage of the graphical user interface improvements available in the latest iOS 7. All of the great functionality of the app is still there, but now it has a cleaner look and feel, and it is much easier to navigate so you can get the most from the app. Look for the update to appear on the App Store in the next few weeks. **GPS Fleet Tracker**
DEX API – Addition of Event Type to Item Status	Event Type is now available when querying using item_status. Developers are encouraged to view the Item Status documentation at: http://www.contigo.com/rc/dex/API_documentation.html

In addition to the features above, this release will also include other minor bug fixes and enhancements.

If you have any questions or comments, please do not hesitate to contact us at support@contigo.com .

Best regards,
The Contigo Team

The right connection.™
