

Latest Release of the Contigo System

The latest release of the Contigo System will be completed on Thursday February 5, 2015. Please see below for a brief description of the enhancements included in this release.

Please note that as of this release, all updates will appear automatically in your portal, and you are no longer required to clear your browser's cache.

Feature	Description
<h3>Proximity Report</h3> 	<p>This new report allows users to select a location on the map and show any vehicles that were within the vicinity of that location within a specified time period.</p> <p>Try it out and send us your feedback!</p>
<h3>Speed Report Filtering</h3> 	<p>In order to clean up report output, an option has been added to the Speed Report to remove the output for any items that do not have any speed violations. Also, output for this report will now be sorted into descending order of number of violations.</p> <p>Please send us your feedback and request any filtering you would like to see in other reports.</p>
<h3>Route Log in Map View</h3> 	<p>We have received very positive feedback for this new report introduced in our previous release, and as a result it will no longer be in "beta" status.</p>

In addition to the features above, this release will also include other minor bug fixes and enhancements. If you have any questions or comments, please do not hesitate to contact us at support@contigo.com.

Best regards,

The Contigo Team
