Latest Release of the Contigo System

The latest release of the Contigo System will be completed on Thursday December 10, 2015. Please see below for a brief description of the enhancements included in this release.

Please note that all updates will appear automatically in your portal (you are no longer required to clear your browser's cache).

Feature	Description
Fuel Card Integration	The Contigo system now supports Fuel Cards of various types. If your fleet vehicles make use of fuel cards, they can now be easily registered in your portal, enabling a variety of related features: • Reporting on fuel card usage from within the Contigo Portal • Correlation of location information with card use, allowing for easy Identification of card misuse Please refer to the Contigo Fuel Card User Guide for more details.

Feature	Description
Latest Garmin Models Supported	Contigo Models 6550 and 6551 are fully compatible with the latest FMI 3.1 Garmin devices. This includes the following Garmin models: dēzl 570LMT and 770LMT nüvi 2xx9 Series nüvi 2xx8 Series nüvi 2xx7 Series All older series of Garmin devices remain fully supported by Contigo. These devices are often available at discount prices from various retailers, but map updates from Garmin may not be available. Please contact Contigo Support if you have any questions concerning Garmin compatibility.

In addition to the features above, this release will also include other minor bug fixes and enhancements.

If you have any questions or comments, please do not hesitate to contact us at support@contigo.com .

Best regards,
The Contigo Team
