

## Latest Release of the Contigo System

The latest release of the Contigo System will be completed on Thursday September 27, 2018. Please see below for a brief description of the enhancements included in this release.

Feature	Description								
<b>Geofence Zones</b> 	<p>The system now supports more detailed polygon shapes in zone scenarios. Users are able to create polygon geofences consisting of up to 200 vertices.</p> <p>These new zones are not restricted by beacon model type. Zone scenarios can be assigned to groups of vehicles that have a variety of beacon models installed.</p> <p>When a zone scenario is created, geofence data may be imported from a GIS system. The supported data format is GeoJSON.</p>
