

## Latest Release of the Contigo System

The latest release of the Contigo System will be completed on Thursday September 24, 2020. Please see below for a brief description of the enhancements included in this release.

Feature	Description
<b>6800 4G LTE OBDII Beacon</b> 	<p>We have recently added a new 4G LTE beacon to our family of plug-and-play devices.</p> <p>The 6800 supports all of the familiar features of our other OBDII beacons, including:</p> <ul style="list-style-type: none"> <li>• Real-time location</li> <li>• Interval Tracking</li> <li>• Route logs</li> <li>• Ignition On/Off</li> <li>• Start/Stop movement</li> <li>• Zone entry/exit notifications</li> <li>• Speed notifications</li> <li>• Idle report and notification</li> <li>• Power Cut notifications</li> <li>• Driver Behavior events, including harsh braking, acceleration and cornering</li> </ul>
<b>Historical Odometer Report</b>	<p>Our odometer reporting has been expanded so that users may now view odometer data that was recorded from fleet vehicles up to 1-year in the past.</p>
<b>System Enhancements</b>	<p>This release includes system and infrastructure enhancements that will improve security and reliability.</p>

In addition to the features above, this release will also include other minor bug fixes and enhancements.
